To solve a Sudoku puzzle, place a number into each box so that each row across, each column down, and each small square within the larger diagram (there are 9 of these) will contain every number from 1 through 9

Hard Puzzle

6					4		9	
1					2		3

			8	3				
			4		9			
					6	1		
3	6			8	5		4	
	4		2					5
	2		1					7

In other words, no number will appear more than once in any row, column, or smaller square.

Working with the numbers already given as a guide, complete each diagram with the missing numbers that will lead to the correct solution.

TESTIMONIALS

I am amazed at the response I've been getting from the ads in the Lake County Shopping Guide. Now **NORTH BAY SHOPPING GUIDE** I received 10-15 calls without any special discount offers the first 6 weeks the paper was out. I've gotten at least 12 jobs from the last ad I ran. This paper works for me. Very affordable rates.

I started advertising in the Lake County Shopping Guide January 2016. Our first ad was with a 5% off coupon. I wanted to see how successful this type of ad would be in a quarterly publication. We've had **GREAT** response. Maria designed our ad & made any changes I requested. I will continue to advertise in the future with **NORTH BAY SHOPPING GUIDE**
